## Maximize Crop Production with YaraVera<sup>®</sup> AMIDAS<sup>™</sup> 40-0-0 + 5.5 S

Increase growth potential with enhanced N use efficiency

YaraVera Amidas is a 7:1 homogeneous source of nitrogen and sulfur that allows for optimal uptake at the soil microsite causing a reduction in volatilization compared to blends.

- Nitrogen is essential for structural and functional proteins and stimulating crop growth.
- Sulfur is an important component of proteins and required for nitrate metabolism.

Superior handling and consistent spreading

YaraVera Amidas is formulated to have superior particle hardness compared to urea and ammonium sulfate.

- Less dust, therefore, less nutrient loss.
- Precisely formulated with nitrogen and sulfur on each particle for consistent spreading without product segregation.
- YaraVera Amidas spreads consistently without noticeable stripping and irregular growth patterns.

### Granular nitrogen and sulfur fertilizer

Total Nitrogen (N)	40.0%	Sulfur (S)	5.5%
Urea N	35.0%	Bulk Density (loose)	49 lbs/cu ft
Ammonium N (NH <sub>4</sub> )	5.0%	Color	Clear Yellow

## YaraVera<sup>®</sup> AMIDAS<sup>™</sup>

**N+S** in One

**syngenta** **Enogen<sup>®</sup> Feed**

## Energize your dairy ration by choosing the right corn hybrid

Improve the profit potential of your dairy operation – it's as simple as planting a hybrid that provides more potential value in the field and in your feed.

Unique Enogen<sup>®</sup> Feed hybrids do just that. Proven genetics and strong agronomic characteristics bring you solid performance in the field. And in your ration, a step-change in starch and sugar availability provides more available energy to your dairy cattle.

### Benefits in the field

- Excellent yield potential across a variety of soil types and conditions
- Proven genetics and traits
- No additional agronomic management challenges<sup>1</sup>, unlike some silage-specific hybrids
- Performs equal to or better than other high-performing silage hybrids<sup>2</sup>

### AGRONOMY CUSTOMER APPRECIATION DAY

Friday, February 5 – 11 AM – 2 PM

Augusta Co-op Warehouse – 967 Lafayette Hill Road, Verona, VA 24482

Additional information: RSVP to Staci Alger at

(540) 885-3652 or SALger@AugustaCoop.com

**CANCELLED**

### CUSTOM SEED BLENDING

- Seed must be purchased through Augusta Co-op
- Minimum of 1,000 lbs of seed required
- Can blend most all seed types
- Repackaged in 50 lb bags or totes

Contact your field sales representative or the agronomy division for pricing.
